
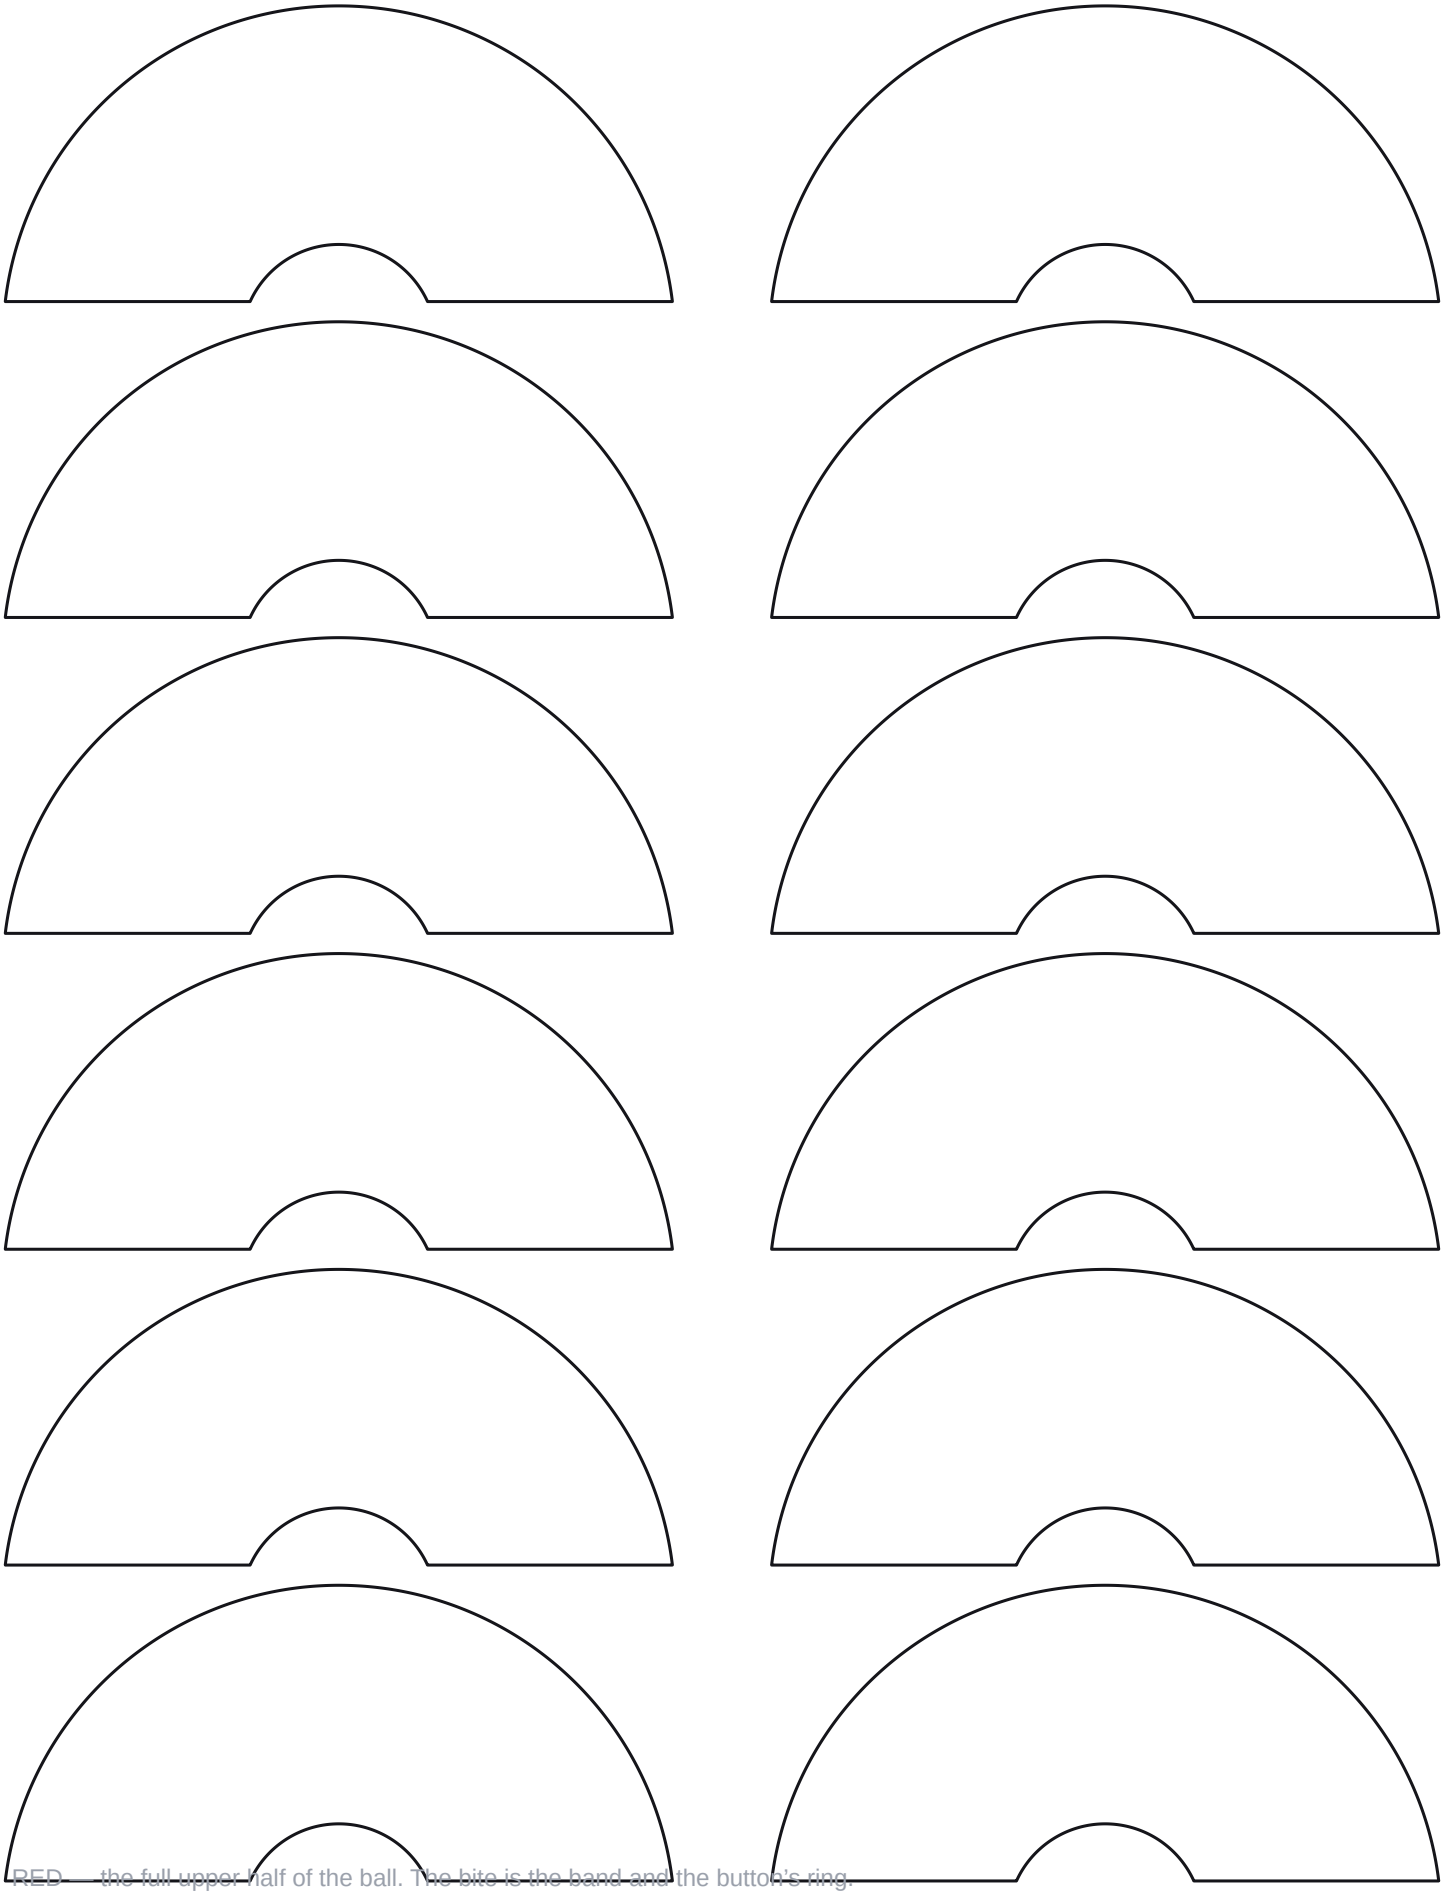
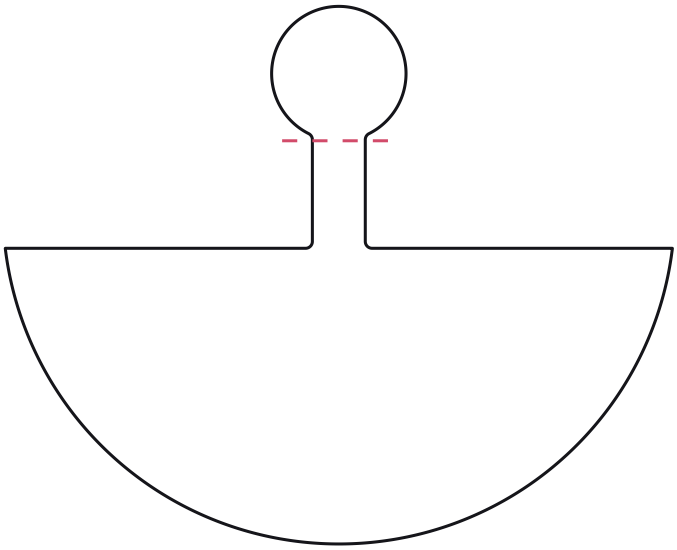
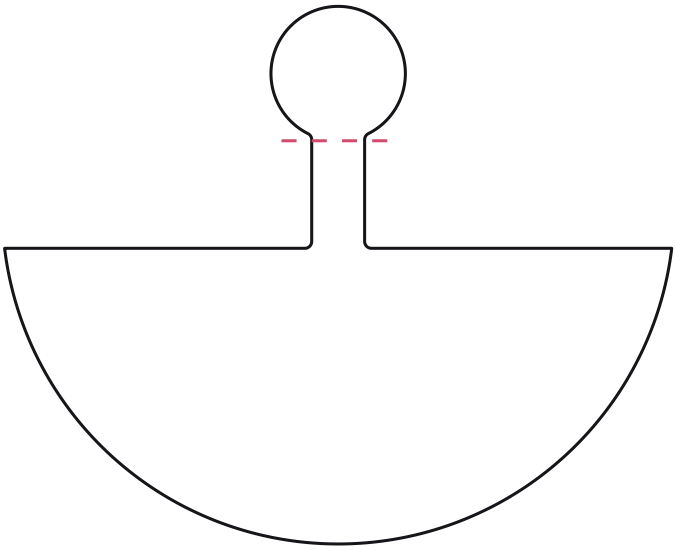
BLACK — 2 per sheet. Dashed = score and fold forward. Cut the short slit; it is the buttonhole. The core is 4 mm smaller than the ball all round,

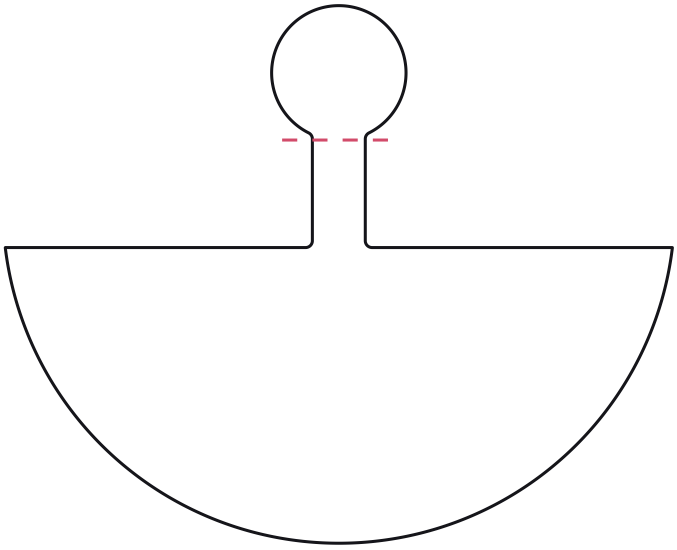


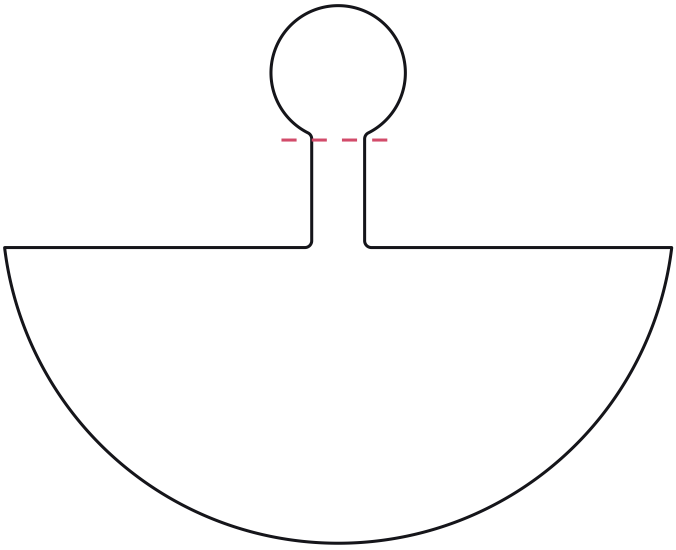
RED — the full upper half of the ball. The bite is the band and the button's ring.

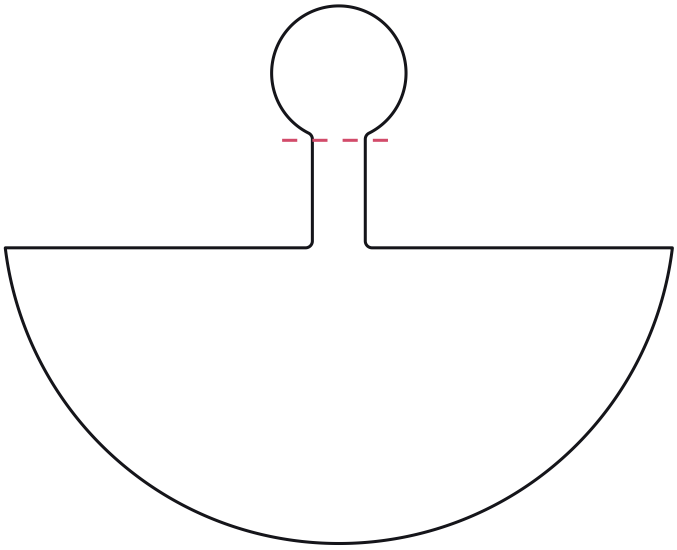
RED cardstock

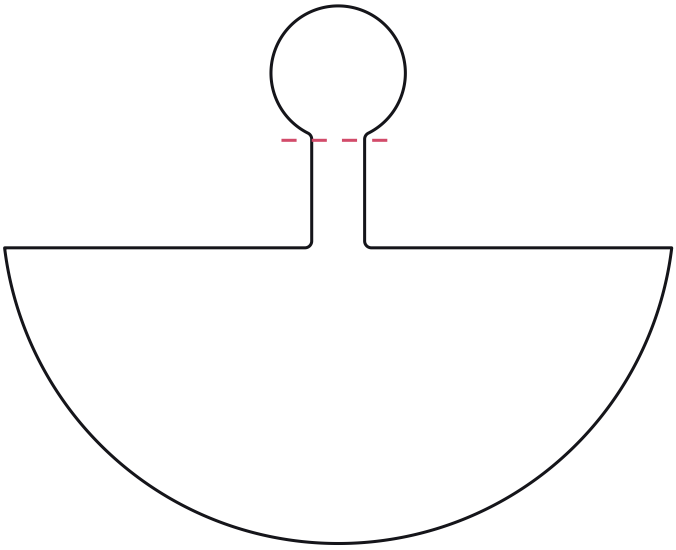












WHITE — the full lower half, reaching a little past centre so the red laps over it. The tongue folds on the dashed line once it is through the slit.

WHITE cardstock
